

TRB Annual Meeting Notes

Committee on Ecology and Transportation

TRB Committee on Ecology and Transportation (ADC30)

Meeting Notes

Date/Time: January 10, 2017 / 10:15 AM to 12 NOON (ET)

Place: Marriott Marquis Independence E (M4)

Next Meeting: May 1, 2017

Attendees: See Attached List

Distribution: All Attendees

Prior to the meeting, Alex Levy provided an agenda (attached), outlining the framework for discussion. Highlights of the ensuing conversation are provided below.

- The meeting was initiated with introductions by all in attendance at the meeting site, and remotely via conference call.
- Alex reviewed the ADC30 Mission Statement to remind attendees of the overarching goals of the committee and its research efforts.
- Alex reviewed committee activities, and noted that we are required to rotate 50% of committee members. Members include Todd Williams (Michael Baker International) and Dan Buford (FHWA), and there are also international members (Wendy Collinson and Dr. Xinjun Wang). The committee also recently changed communications chair as Marcia Bowen retired and moved off the committee, and Jeff Simmons has taken on the role. Alex noted that the 2016 mid-year workshop/meeting in Salt Lake City was undertaken with TRB ADC50 (Cultural Resources Committee) and ADC10 (Environmental Analysis and Transportation).
 - Many of the workshops at this annual meeting were derived from discussions that occurred at the mid-year meeting.
 - Among the workshops at this Annual Meeting that came out of discussions in Salt Lake City were “Bats at the Crossroads” (with ADC10, AHD50, ALO50). As an outcome of the discussions at that workshop, there was a desire expressed by several attendees to include research regarding mitigation, especially of white-nosed syndrome. Other workshops at the Annual Meeting include the use of LiDAR and Transportation (with ABJ50, ABJ60, ADC50, and ADC60), cosponsored Sessions (214, 394, 489, 512, 624, 746, 512), sessions on biofuels, pollinators and roadside vegetation management, and alternative uses of ROW.
- We also had 7 posters during our poster session. Alex noted that we have the ability to do invited poster abstracts, which would allow for up to 20 spots for posters in the future. Friends and committee members were encouraged to attend. Session 701: Cultivating resilience (with ADE80, ADO00, ADC00, ADC10, AFB40, AHD50). Hot Topics session. Dan – expand next year to include more technologies. Session 869: Maintaining Connectivity (with AFB40, AHD50, ANB20(2)).

The National Academies of
SCIENCES • ENGINEERING • MEDICINE

TRANSPORTATION RESEARCH BOARD

- Jonathan Rubin (Section Chair) provided a TRB update. He proposed that if a session is in a spotlight theme, we could get an extra session arranged. Mr. Rubin noted that TRB had more than 6,000 papers submitted, and more than 13,700 people registered for the annual meeting. TRB is pushing for the organization to start looking like the population we serve in terms of race, disabilities, communities, gender, etc. It was articulated that we need to make sure any research conclusions presented are evidence and science based. Also, it was emphasized that we need to make sure that as an organization we reach out to others that attend events and meetings – in other words, be inclusive.
- Liaison Subcommittee:
 - Animal Vehicle Collision Co-chairs, Fraser Shilling (reporting), Road Ecology center at UC Davis and Keith Knapp Local Technical Assistance Program, UI Comm Communications, newsletter. The Committee changed its name to Subcommittee on Animal Vehicle *Conflict* rather than Collisions. The subcommittee discussed potential sessions at TRB 2018 and a possible NCHRP synthesis topic.
 - Alex noted that the old ADC30 website is no longer hosted at CTE, and Bridget Donaldson has set up a website on weebly in its place. Alex also noted that the Committee needs a new poster with better graphics.
 - Jeff covered topics germane to Committee Communications - the next announcement requesting content for the spring newsletter will be issued sometime in March or April 2017. It was requested that for any future newsletter article submissions, confirmation of permission to publish photos and graphics should be provided. This is to avoid copyright infringement issues.
 - Meeting minutes from the July 2016 mid-year meeting are posted on weebly website.
 - We will be issuing a request for Committee members to provide bios and photos put on the Committee weebly website. Just a one pager with headshot.
 - It was requested that all attendees sign in so we have an accurate roll call of who attended the meeting.
 - Everyone was reminded to visit MyTRB.org and register, or update your profile if you are already registered. Registering on the MyTRB.org site is the only way to ensure you get newsletters and announcements.
 - Christine Gerencher announced that Alex will be stepping down as Committee Chair in the spring, and Dan Smith will become the new ADC30 Committee Chair. She acknowledged the significant contributions of Alex Levy to the Committee, and thanked him for all he has done.
 - Todd Williams provided an update on the Research Subcommittee which included the following highlights: February 17, 2017 is the deadline for National Cooperative Highway Research Program (NCHRP) Synthesis Program – Committee members have an opportunity to submit suggestions on research topics. Collaboration with State Departments of Transportation (DOTs) and other Transportation Research Board (TRB) Committees is encouraged and strengthens the case for funding support. It was recommended that anyone interested in submitting get Todd and Kris Gade involved, and a sponsor (DOT or Federal Highway Administration (FHWA) should be identified. Also was noted that American Association of State Highway and Transportation Officials (AASHTO) and TRB committee connections/ help make the case for selection and financial support. Problem statements to NCHRP have a mid-October deadline. There are also opportunities through Transportation Environmental Research Ideas (TERI), which allows for proposing topics (talk to Todd or Kris Gade for more information).
 - Kris Gade (Arizona DOT) provided an update on the AASHTO Standing Committee on the Environment (SCOE). Kris is the Vice Chair of the SCOE Natural Resources subcommittee and coordinates research topics related to wildlife and vegetation for SCOE consideration for the National Cooperative Highway Research Program (NCHRP). SCOE collects ideas for research through an online database called TERI (http://environment.transportation.org/teri_database). Ideas submitted to TERI are downloaded in late May/early June each year. SCOE prioritizes research topics that will result in output useful to multiple state DOTs. Kris matches ideas from TERI with DOTs to

ensure there is interest before official research statements are developed. There are two main types of funding available through this process: NCHRP 25-25, which is quick turnaround environmental topics with a value of up to \$125,000 and completed in 18 months, or full NCHRP research projects, which can be up to \$600,000 and take multiple years to complete. The group discussed that it would be helpful to post the ADC30 research ideas to TERA and to develop a list of researchers and consultants with different expertise for posting on the ADC30 webpage.

- Agencies: Dan Buford (FHWA) provided an update, indicating that FHWA has been developing a programmatic approach for bat consultation. The plan is for this to be done through an online submission. He also indicated that there would be new liaisons with ACE and NMFS. FHWA is working on a couple of ESA and Magnuson Fisheries programmatic consultations, which could impact work from Maine to Northern Florida. He also noted that Marlys has moved on from FHWA to Federal Railroad Administration (FRA).
- Kate Kurgan provided an update on activities with AASHTO – they are now focused on SHRP2 projects, CO6 (EcoLogical) and C19 (Expedited Project Delivery). A Practitioners Handbook (implementing EcoLogical) is available, and webinars designed to describe how to implement EcoLogical having been going on and one more is coming up in late January 2017. She also indicated that FHWA will continue to work on EcoLogical. The SHRP2 C19 (Expedited Project Delivery) will continue on until end of 2017, with 4 more webinars this year. Some of this material will be presented at AASHTO and TRB panels, and an upcoming session at the International Conference on Ecology and Transportation (ICOET).
- Mid-Year meeting will be held May 14-18, 2017 at ICOET at the Salt Palace Convention Center in Salt Lake City, UT. It is a Wyoming DOT and Utah DOT sponsored event. Highlights of the conference will include the Pinedale field trip (pronghorn crossing) and a National Geographic photographer (Joe Riis) as a keynote speaker. It will also include lightning sessions (5-minute talks), e.g., collaboration and cooperation in UT which is being organized by Patty Cramer.
- Alex Levy provided certificates to Kris Gade, Dan Smith, Jeff Simmons, and Bridget Donaldson for contributions to ADC30 in 2016.
- Alex requested that meeting attendees that called in send him an email to let him know they were in attendance.

The meeting adjourned at approximately noon ET.

The foregoing is considered to be a true and accurate record of all items discussed. If any discrepancies or inconsistencies are noted, please contact the writer immediately.

Respectfully submitted by Jeff Simmons.

*Jeff Simmons, PWS/NHCWS
ADC30 Committee Communications Coordinator*

*Environmental Services Sector Leader, Transportation
